

**Quality of Life...<sup>SM</sup>**  
**Insurance**  
Your Money. Your Insurance. Your Choice.

If you were to get sick or disabled and could not earn an income, would you or your family be able to maintain your quality of life?

**Or**

**What if you suffer a heart attack, stroke, or invasive cancer and don't die? Would your family be able to maintain their standard of living if you were financially impacted by a serious illness?**

Traditional life insurance is designed to provide security for your loved ones in the event of your premature death... but **what if you could get life insurance you don't have to die to use?**

**We all have dreams and goals for our families:**

- To maintain your current standard of living
- Staying in your home that you've worked hard for
- Sending your children to college
- Making our children's weddings come true
- Being able to have options for our parent's burial etc...

*Why wait for the unexpected when you can protect your "Quality of Life" today?*

*\*\*\* With that in mind, I would like to position myself as a financial resource to you and to your family, and I'd like to share with you the scope of the work that I do. That way, you will be better able to use my expertise any way that you think is best.*
